

Electrolux Group & CDP Supply Chain Program

Stockholm, April 15, 2025

Dear Supplier,

We want to extend our sincere gratitude for your participation in the 2024 CDP Supply Chain Program and for submitting your response to Electrolux via CDP. Your contribution holds significant importance to us and serves as a crucial input for our *For The Better 2030 Sustainability Framework*. This year, we received responses from 353 of our key suppliers. We appreciate the dedication you have put into this important topic, and we are committed to continuing this journey alongside you.

We understand that this year has been **particularly challenging** due to the difficulties encountered with the new CDP platform and the stricter scoring criteria introduced in the Full Questionnaire. For this reason, we want to emphasize that **we are proud of your progress and extremely pleased with your improvement compared to the 2023 result**. Your enhanced score demonstrates your growing commitment and hard work, and we sincerely appreciate your efforts. We encourage you to persevere on this path with the same level of dedication and engagement to continue improving in the future.

Looking ahead to 2025, we are confident that CDP will address last year's challenges and improve the user experience. Our focus areas will remain the same: it will be of utmost importance that our suppliers report their energy consumption data, as well as their Scope 1&2 emission data, ideally third-party verified. Additionally, it is essential to set emission reduction targets, preferably endorsed by the Science-Based Targets (SBTs) initiative.

In the coming months, you will receive an invitation to join a webinar where we will provide detailed information on focus areas and questionnaire changes for the 2025 disclosure cycle, which is expected to begin in mid-June.

Once again, thank you for your continuous support. For any inquiries, please feel free to reach out to Alberto Chiappinotto (alberto.chiappinotto@electrolux.com), Procurement & PSO Sustainability Director since the beginning of 2025, or Paolo Palmieri (paolo.palmieri@electrolux.com), who has been leading the program since last year.

Yours sincerely,

Michelle Shi-Verdaasdonk
Chief Procurement Officer
